The 22<sup>nd</sup> February 2025

Dear my beloved parent, first I greet you, hello! How are you? On my side, the news is good.

My news in the family is good, I help my parents in their works after school in evening and during the weekend. On Sunday, I go to pray and after I wash my school cloths.

I study at Mushubi senior secondary school in senior two. We started the second trimester on January,6/2025. In the first trimester, I obtained 68 percent marks and I was the 5<sup>th</sup>.

At school, we have different club and every student has a club. I am in the language club, from home to school. I use 40 minutes. In our school, every student must arrive et school on twenty minutes past seven 7:20 to do self-study.

I am studying well and I am giving myself a target in this second trimester to have good marks beyond those of the first trimester. I will study with my full heart and all my efforts to obtain good marks.

I thank you for the support that you always give me to study well. In that support, I obtain school materials which include notebooks, pens, shoes, school cloths and helps me to pay health insurance.

I end by thanking you and wishing you to have Happy Easter of the year 2025

He was your child Clement MANISHIMWE
